

Updated March 8, 2022

Overview

Washington State Ferries is incrementally increasing service to meet increasing demand as the ferry system continues to recover from the pandemic. A return to full capacity of the system is dependent on several variables, including:

- The trajectory of the pandemic and ongoing impacts of COVID-19 on the workforce.
- Ridership levels and accommodating the seasonal increase in summer peak season ridership.
- The ability of WSF to recruit, hire and train new employees to fill key positions.
- The rate of retirements and other separations that contribute to overall staffing levels.
- Lack of vessels due to unanticipated breakdowns and an aging fleet.

Progress toward reaching targeted staffing levels
